13. Future plans and Goals:

I. Expansion into New Territories

To extend our reach and impact, we aim to expand operations into various states and regions. This expansion encompasses facilitating individual farmer certifications and participation in government schemes. Through targeted awareness campaigns, training programs, and workshops, we will educate farmers on the benefits and processes of PGS certification.

II. Continuous Improvement

Ensuring the credibility and integrity of the PGS certification process is paramount. We commit to continuous improvement through regular internal reviews, stakeholder feedback incorporation, and alignment with evolving national and international organic standards.

III. Research and Development

Collaborating with research institutions, universities, and experts, we will promote research and development in organic farming practices and certification. By generating knowledge and innovating sustainable techniques, we aim to contribute significantly to the growth of the organic sector.

IV. Capacity Building

Enhancing the capabilities of farmers and certification practitioners is a cornerstone of our approach. Through organized training sessions and technical guidance, we will empower them with the necessary knowledge on organic farming practices, certification requirements, and quality assurance.

V. Strengthening Farmer Networks

Establishing robust networks among organic farmers and farmer groups will foster knowledge sharing and collaborative initiatives. These platforms will facilitate the exchange of best practices and collective efforts to address challenges in organic farming effectively.

VI. Facilitating Market Linkages

We are committed to creating sustainable market opportunities for PGS-certified farmers. By collaborating with local and regional market channels, retailers, and consumers, we aim to establish market linkages that ensure fair and remunerative prices for organic products.

VII. Policy Advocacy

Actively engaging in policy advocacy is essential to creating an enabling environment for organic farming and PGS certification. We will collaborate with relevant government agencies, policymakers, and stakeholders to influence policies supporting organic agriculture at regional and national levels.

VIII. Pursuing NPOP Accreditation

We are dedicated to pursuing accreditation from APEDA for NPOP standards, further enhancing the credibility and recognition of our certification system.

15. Suggestions for improvements PGS certification:

These suggestions are broadly related to the operations and handling of PGS India Website.

Sl No.	Condition/ Case	Scope for improvement
I.	When users navigate back from a specific local group, all applied filters such as scheme, status, state, and district are disabled automatically, causing delays in reapplying those filters.	<p>I.) <u>Persistent Filters</u>: Design the interface to remember the filters applied by the user, even when navigating back and forth between different views. This ensures that users don't have to reapply filters every time they revisit a page.</p> <p>ii.) <u>Breadcrumb Navigation</u>: Include breadcrumb navigation or a similar visual cue to indicate the user's path through the application. This allows users to easily track their navigation history and return to a specific local group without losing their applied filters.</p> <p>iii.) <u>Filter Preservation</u>: When users navigate back to a previous page, preserve the applied filters temporarily until the user explicitly clears them or applies new filters. This can be done using session storage or cookies to maintain filter state across page transitions.</p> <p>iv.) <u>Quick Filter Access</u>: Provide users with quick access to recently applied filters or a list of saved filter presets. This allows users to reapply filters with a single click, reducing the time spent manually selecting filters.</p> <p>v.) <u>User Settings</u>: Offer users the option to save their preferred filter settings as default or create custom filter presets. This gives users more control over their filtering preferences and reduces the need to reapply filters repeatedly.</p> <p>vi.) <u>Feedback Mechanism</u>: Implement a feedback mechanism to gather input from users about their experience with the filtering functionality. Use this feedback to identify areas for improvement and refine the filtering process accordingly.</p>
ii.	“Export to Excel” is limited to 250 entries only which could be restricting for Rcs who need to export larger data sets for analysis or reporting purposes	<p>I.) Custom Export: Offer users the ability to customize their export settings, including the number of entries to export and which fields to include. This provides flexibility and caters to different user preferences and needs.</p> <p>ii.) Incremental Export: Implement an option for users to export data in batches or increments. This allows users to export larger data sets by breaking them down into manageable chunks.</p> <p>iii.) Pagination: Introduce pagination controls to allow RCs to navigate through multiple pages of data before exporting. This enables users to select specific pages or ranges of data to export.</p>

iii.	<p>The absence of search functionality in the Peer Appraisal tab of the PGS India Portal for local groups (Lgs) by name, LG code, Provisional registration number, state, district, village, etc., could hinder users' ability to efficiently locate and access specific LGs.</p>	<p>I.) <u>Search Filters</u>: Introduce search filters that allow users to search for LGs by various criteria such as name, LG code, Provisional registration number, state, district, village, etc. These filters should be prominently displayed and easily accessible within the Peer Appraisal tab.</p> <p>ii.) <u>Autocomplete</u>: Implement autocomplete functionality in the search bar to assist users in quickly finding LGs as they type. This feature can improve the search experience by suggesting relevant matches based on the entered text.</p> <p>iii.) <u>Advanced Search</u>: Offer an advanced search option that enables users to refine their search criteria further. This could include additional filters or parameters to narrow down search results based on specific attributes or characteristics of LGs.</p> <p>iv.) <u>Saved Searches</u>: Allow users to save their frequently used search queries for quick access in the future. This feature can save time for users who regularly search for specific LGs or use specific search criteria.</p>
iv.	<p>The occurrence of entered meetings and training proceedings disappearing or being automatically deleted from the PGS-India Portal through Local Group login could potentially lead to data loss.</p>	<p>I.) <u>Error Logging</u>: Implement error logging mechanisms within the portal to track instances where meetings and training proceedings are disappearing or being deleted. This will help in identifying the root cause of the issue.</p> <p>ii.) <u>Audit Trail</u>: Introduce an audit trail feature that records all changes made to meeting and training data, including additions, modifications, and deletions. This will enable administrators to trace back any unintentional deletions or changes and take appropriate action.</p> <p>iii.) <u>Bug Fixes</u>: Continuously monitor and address any software bugs or technical issues that may be causing the disappearance or deletion of meeting and training data. Regularly update the portal with bug fixes and patches to ensure optimal performance and reliability.</p>
v.	<p>Transfer of local groups between Regional Council (RCs) not reflected in the group trail tab in the PGS-India Portal.</p>	<p>I.) <u>Real-Time Updates</u>: Ensure that any transfer of local groups between RCs is promptly updated in the group trail tab.</p> <p>ii.) <u>Automated System</u>: Implement an automated system that detects and records transfers, reducing manual errors and delays.</p> <p>iii.) <u>User Notification</u>: Notify relevant stakeholders (RCs, group administrators, etc.) when a transfer occurs, providing clarity and transparency.</p> <p>iv.) <u>Audit Trail</u>: Maintain a comprehensive audit trail documenting all transfers for accountability and tracking purposes.</p>

vi.	In the case of death of registered farmers under PGS Portal.	Concerned Regional Council may be allowed for updating or removal of such farmers after validation of records through Local Group/Cluster.
vii.	In the case of farmer not interested to continue Organic farming and PGS Certification.	I.) Local Groups/ Service providers may submit the case related to unwillingness of farmers to concerned Regional Council. ii.) Regional council after undertaking necessary monitoring visit and clear observations will submit the case to concerned Zonal council. iii.) Zonal Council on recommendation of Regional Council may be allowed for removing registered farmer data from PGS Portal.
viii.	In the case of sale of registered farm/land.	I.) Local Groups/Clusters/Service provider may submit the case to concerned Regional Council.

Report No	ATH-2103241977	LG No as per PGS Portal	LG2000069394
Start of Analysis	21.03.2024	Sample Condition	Satisfactory
End of Analysis	23.03.2024	Samp Qty (Appx.)	250 GMS
Report Release Date	23.03.2024	Khasra No.	44
		Packing Mode	Sample packed in Plastic Bags
Cluster Name	Namami Gange I/ Fatehpur/ Khargupur Bargala	Farmer's Name	GEETA DEVI
Address	Khargupur Bargala Block Airayan	Father/ Husband's Name	AMAR SINGH
Sample Submitted by	Qmark International Certifications Pvt. Ltd. Assam		
Test Report Issued to	Qmark International Certifications Pvt. Ltd. Assam

District- Dhemaji, Assam
Mobile No. : 7099680473
E-mail : nirubhyan92@gmail.com

Farm Details:

1. Name of LG: Surajmukhi Orgatech 33 Sissiborgaon ASRLMS PGS Group (LGO200070306)
2. Name of RC with Whom LG is Registered: Qmark International Certifications Pvt. Ltd.
3. Area Covered by the Farmer and Crop Details: Mrs. Niru Bhuyan and her fellow farmers cultivate seasonal vegetables such as cucumber, brinjal, chilli, cowpea, bottle gourd, ridge gourd, papaya, maize, rice, mustard, black pepper, etc. They collectively farm on 2.66 hectares of land.
4. Integration of Animal and Livestock Status: Mrs. Niru Bhuyan's farm integrates 50 cows and 62 goats into their agricultural system.

Introduction to Organic Farming:

Mrs. Niru Bhuyan and her group of lady farmers embarked on their organic farming journey with Surajmukhi Orgatech 33 in 2019. Initially, their focus was solely on production, but upon recognizing the demand for organic produce, they shifted their attention towards cultivating organic vegetables. They discovered that collective farming not only boosts yields and profits but also facilitates scaling operations for enhanced productivity.

Organic Inputs Prepared on Farm:

Mrs. Niru Bhuyan utilizes various organic inputs to nurture her soil and crops. These include vermicompost, farmyard manure (FYM), raised beds, liquid organic manure, zero tillage beds, and heap compost. Each input is carefully prepared and applied to enrich the soil and foster healthy plant growth.

PGS India Registration and Special Achievements:

Mrs. Niru Bhuyan's farm is registered under PGS India Green/PGS India Organic, showcasing their commitment to organic practices. Their efforts have led to higher incomes, increased surplus, better livelihoods, and improved soil health and ecology.

Special Cultural Practices and Marketing:

To enhance production, Mrs. Niru Bhuyan employs special cultural practices such as mulching with rice straw, using trap crops, and applying biopesticides. Moreover, their produce is marketed locally through their own organic shop in Dimow village, near the highway.

They also engage with middlemen for direct farm purchases, weekly supplies, door-to-door sales, and advance bookings.

Production and Certification Status:

The farm primarily sells its certified organic products in the domestic market. They have not pursued FSSAI license yet. Their organic vegetables yield handsome incomes, contributing to their economic stability.

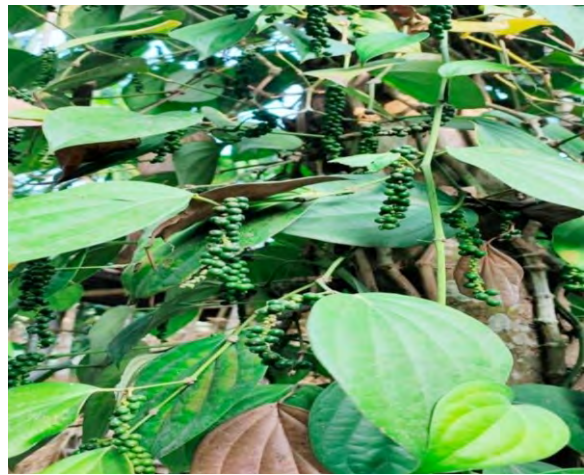

Conclusion:

Mrs. Niru Bhuyan's success story exemplifies the transformative power of organic farming. Through dedication, collective effort, and sustainable practices, she has not only improved her livelihood but also contributed to environmental conservation and community well-being.

By embracing organic agriculture, Mrs. Niru Bhuyan has become a beacon of hope and inspiration for farmers across Assam, demonstrating that sustainable farming practices can lead to prosperity and ecological harmony.

Success Story of Mrs. Bina Koch

Empowering Organic Farming

SUCCESS STORY: 2

Introduction:

Mrs. Bina Koch, a resilient and innovative farmer hailing from the serene village of Oubari Jungle in Udalguri District, Assam, has emerged as a beacon of organic farming in her community. Her journey epitomizes the spirit of sustainable agriculture, marked by meticulous planning, diligent execution, and a relentless pursuit of excellence.

PERSONAL INFORMATION:

Name of Farmer : Mrs. Bina Koch (Member code: 1386148)
Father's Name : Dehiram Hazarika
Date of Birth : 01/01/1973
Village : Oubari Jungle, Balisiha Jungle
Block : Rowta
District : Udalguri
State : Assam
Mobile No. : 6002648103
E-mail ID : binakoch198624@gmail.com

Farm Details:

- Name of LG: Group K Rowta ASRLM PGS Group
- Name of RC with Whom LG is Registered: Q mark Certifications Pvt. Ltd.
- Area Covered by the Farmer and Crop Details: 1.56 ha (12 bigha)
- Integration of Animal and Livestock Status: 3 Cows, 3 Goats, 8 Hens
- Mrs. Bina Koch embarked on her organic farming journey in the Khar if season of 2021.

Organic Inputs Prepared on Farm

- Vermicompost: Mrs. Koch meticulously prepared vermicompost by layering sand, dry manure, household waste, and soil in a Thermocol bucket. She then introduced spiders for natural composting, resulting in nutrient-rich vermicompost ready for use.
 - Liquid Organic Manure: She concocted liquid organic manure using cow manure, topsoil, rice milk, fly ash, and foot-ash, ensuring a balanced blend of nutrients for her crops.
 - Zero Tillage Bed: Employing a sustainable farming technique, Mrs. Koch created zero tillage beds with layers of dry leaves, topsoil, and organic matter, providing an optimal environment for crop growth.
 - Off-Farm Organic Inputs Usage: Mrs. Koch relied solely on on-farm organic inputs, eschewing off-farm inputs entirely.
- Registration Status Under PGS India Web Portal: Mrs. Koch's farm attained PGS India Green status under NRLM, showcasing her commitment to organic practices.

Special Achievements:

Mrs. Bina Koch's dedication to innovation and experimentation has yielded remarkable results. Despite being a marginal farmer, she has carved a niche for herself in organic agriculture. By producing king chilly and vermicompost, she consistently earns substantial income, ranging from Rupees 60,000 to 70,000 per season.

Special Cultural Practices:

Carbon ash mixed with dry cow dung serves as a local compost, reflecting Mrs. Koch's ingenuity in utilizing indigenous resources for sustainable farming.

Status of Marketing:

Her products are sold in local markets such as Dhansiri Bazar, Gama Bazar, Hatkhola Bazar, and Rowta Bazar, demonstrating strong community support for her organic produce.

Increase in Production/Productivity (per hectare or acre):

Mrs. Koch's dedication has led to significant increases in production across various crops, including pumpkin, brinjal, chili, potato, mustard, sesame seed, and turmeric, among others.

Organic Carbon Status:

The organic carbon status of Mrs. Koch's farm has shown positive trends, indicative of sustainable soil management practices.

CONCLUSION:

Mrs. Bina Koch's journey is a testament to the transformative power of organic farming. Through her perseverance, she has not only achieved financial stability but has also become a role model for sustainable agriculture in her community. Her success underscores the immense potential of small-scale farmers to drive positive change in the agricultural landscape.

The Journey of Ms. Jerina Gogoi

Empowering Rural Agriculture

SUCCESS STORY: 7

PERSONAL INFORMATION:

Name of Farmer : Jerina Gogoi (Member code: 1359194)
Father's Name : Chandrakanta Rajkhowa
Date of Birth : 25/12/1983
Village : Majkopohua Gaon
Block : Lakhpathar Itakhuli Dev.
District : Tinsukia
State : Assam
Mobile No. : 9678718143
E-mail ID : gogoijerina328976@gmail.com

Introduction:

Ms. Jerina Gogoi, a resilient woman farmer from the serene village of Majkopohua Gaon, has emerged as a beacon of sustainable agriculture in the heart of Assam. Under the auspices of the Lakhpathar 1 Itakhuli ASRLM PGS Group, she has transformed her modest landholding into a thriving organic farm, setting an exemplary standard for her community.

Farming Endeavours :

Jerina's journey into organic farming commenced in 2020, driven by a passion for sustainable agriculture and a desire to enhance her family's livelihood. Her farm, spanning 0.13 hectares, boasts a diverse range of crops, including cabbage, cauliflower, knolkhol, turmeric, ginger, king chilli, bitter gourd, and more.

Organic Inputs and Techniques :

Embracing traditional wisdom and modern techniques, Jerina utilizes a blend of on-farm and off-farm organic inputs to nourish her soil and crops. From meticulously prepared animal manure to vermicompost, she ensures the holistic health of her farm ecosystem.

Special Achievements:

Jerina's dedication to organic farming has yielded remarkable results. Through innovative practices such as seed sorting, seed treatment, and nursery bed raising, she has enhanced her vegetable yields significantly. Her commitment has not only generated a substantial profit of approximately Rs. 15,000 but has also inspired fellow farmers to adopt organic methods.

Cultural Practices and Impact :

Adopting cultural practices such as raised beds, zero tillage, and mixed cropping has revolutionized Jerina's farming approach, leading to higher productivity and profitability. Her success underscores the transformative potential of sustainable agricultural techniques.

Marketing and Sustainability :

Jerina's produce finds eager buyers in local markets, including Tingrai and Digboi. Through direct sales and partnerships with FPOs, she ensures a steady market for her organic harvest. Moreover, her strategic investments in crops like drumstick and coconut signify her commitment to long-term sustainability.

Future Outlook :

With her farm certified under PGS India and supported by Qmark International Certifications Private Limited, Jerina envisions a future where organic agriculture thrives, enriching both the land and the lives of her community. Through continued dedication and innovation, she aims to further elevate her farm's productivity and impact.

CONCLUSION

In the verdant landscapes of Assam, Jerina Gogoi's story epitomizes the transformative power of organic farming. Through perseverance, knowledge, and a deep-rooted connection to the land, she has not only secured her family's future but has also become a catalyst for sustainable agriculture in her region.

Ltd.</p>  <p>PGS-INDIA INTRODUCTION</p> <p>WHAT IS PARTICIPATORY GUARANTEE SYSTEM PGS? Participatory Guarantee System (PGS) is a quality assurance initiative that is locally relevant, emphasizes the participation of stakeholders, including producers and consumers and operate outside the frame of third party certification. As per IFOAM (2008) definition "Participatory Guarantee Systems are locally focused quality assurance systems. They certify producers based on active participation of stakeholders and are built on a foundation of trust, social networks and knowledge exchange".</p> <p>IS PGS-INDIA PROGRAM A GOVERNMENT APPROVED CERTIFICATION SYSTEM? Yes. PGS-India program is a Government program being operated by the Department of Agriculture and Cooperation under National Project on Organic & Natural Farming (NCOIF-PGS Secretariat).</p> <p>WHAT IS LOCAL GROUP AND WHAT ARE ITS ROLE AND RESPONSIBILITIES? Local group is the main functional and decision making body under Participatory Guarantee System. It is a local group of farmers that live in the same village or close by villages and interact regularly with each other.</p>
<p>WHAT ARE MINIMUM REQUIREMENTS FOR A LOCAL GROUP TO JOIN PGS-INDIA?</p> <ul style="list-style-type: none"> • A Local group must comprise of minimum 5 members. • All the members should be living in the same or in close by villages. • All the members are having similar farming practices. • Land holding of one member of the group must not exceed one third of total groups land holding. • Willing to work together in group. • At least one member is well aware of PGS-India standards, organic methods of cultivation and PGS operational procedures or has undergone necessary training organized by RC or PGS-India secretariat. <p>WHAT ARE MINIMUM DOCUMENTATION REQUIREMENTS FOR A LOCAL GROUP FOR REGISTRATION WITH REGIONAL COUNCIL?</p> <ul style="list-style-type: none"> • Application form, farm history sheet and farmers pledge in respect of each farmer member. • LG application form with agreement and ToR duly signed. • Endorsement of the group by any other endorsing agency as specified in PGS-India operational manual. • Each group member need to provide following documents in hard copy, duly signed: <ul style="list-style-type: none"> • Application form • Farm history sheet • Farmers pledge • Mobile number and Aadhar number are mandatory for filling of application. • Bank account details are optional for filling of application. <p>WHAT ARE ADVANTAGES OF PGS OVER THIRD PARTY CERTIFICATION? Important advantages of PGS-India over third party certification system are as follows:</p> <ul style="list-style-type: none"> • The procedures are simple: documents are basic and use the local language understandable to farmers. • All the members are local and known to each other. Being themselves practicing organic farmers have high degree of understanding on day-to-day knowledge or acquaintance of the farm. • Peer appraisers are among the group and live in the same village, therefore have better access to surveillance • Peer appraisal instead of third party inspections reduces cost! 	<ul style="list-style-type: none"> • Mutual recognition and support between Regional PGS groups ensures better networking for processing and marketing. • Empowers farmers with increased capacity building • Bring consumers to the farm without the need of middleman • Unlike grower group certification system of third party, PGS offer every farmer with individual certificate and each farmer is free to market its own produce independent of group. • Consumers and buyers are often involved in production and verification process • Random residue testing at regular intervals ensures the integrity, quality assurance and increases the trust. <p>WHAT ARE LIMITATIONS OF PGS? PGS certification is only for farmers or communities that can organize and perform as a group within the village or in close-by villages with continuous territory and is applicable on, on-farm activities comprising of crop production, processing and livestock rearing (including bee keeping) and off-farm processing of their direct products under their supervision. Group of farmers having less than 5 members are not covered under PGS, they have to opt for individual certification under PGS-India Programme.</p>  <p>জৈৱিক খাদ্য কি ? জৈৱিক খাদ্য মানে কোনো ধৰণৰ কৃত্ৰিম মানৱ নিৰ্মিত ইনপুট যেনে ৰাসায়নিক সাৰ, হৰম'ন এণ্টিবায়োটিক আদি ব্যৱহাৰ নকৰাকৈ প্ৰাকৃতিক পদ্ধতিৰে উৎপাদন কৰা যিকোনো ধৰণৰ খাদ্য বা ইয়াৰ কেঁচামাল (যেনে শস্য, তেল, মছলা আদি)।</p>	<p>পি.জি.এছ. IMPORTANCE OF SOIL TESTING-

- To provide an index of nutrient availability.
পুষ্টিৰ উপাদানৰ উপলব্ধতাৰ সূচকাকৈ প্ৰদান কৰা।
- To provide a basis for fertilizer recommendation.
সামৰ পৰামৰ্শৰ ভিত্তি প্ৰদান কৰা।
- It will also allow you to determine lime requirements
ইয়াৰ উপৰিও ই চূন্যৰ প্ৰয়োজনীয়তা নিৰ্ধাৰণ কৰে।
- Soil testing is also a requirement for farms that must complete a nutrient management plan.
পুষ্টি ব্যৱস্থাপনা পৰিকল্পনা সম্পূৰ্ণ কৰিবলগীয়া পামবোৰৰ বাবেও মাটি পৰীক্ষা কৰাটো এটা প্ৰয়োজনীয়তা।

PRINCIPLE OF SOIL TESTING (মাটি পৰীক্ষাৰ নীতি)-

- In general, sampling is done at the rate of one sample for every two hectare area.
সাধাৰণতে প্ৰতি দহেক্টৰ (2ha) ভূমিৰ বাবে এটা নমুনাৰ হাৰত নমুনা সংগ্ৰহ কৰা হয়।
